Indoor DVB-T antenna small tube design 28 dB FM/VHF/UHF

General information

Small tube design indoor DVB-T antenna for the reception of digital terrestrial TV and radio signals in Europe. This easy-to-install antenna is suitable for all DVB-T receivers. In order to reduce the impact of LTE (4G) on the 800 MHz band, a low pass filter is used in this product, related to the removed RF frequencies (790-862 MHz, CH 61-69).

Specifications

Type:	DVB-T
